

Elevations® Tips

- Log on at www.ElevationsForOrganizations.com
- **Your access code only works once, getting you to the registration page.**
- When registering, enter a valid e-mail address and create your own password. These become your “log on” codes. To help you remember your log on codes, they are e-mailed to you.
- You can start using Elevations® immediately, as soon as you have registered. You don’t need to wait to receive the e-mail. There is a “Start Elevations®” button at the bottom of your Registration Confirmation page.
- Elevations® does not need to be completed all at once. Hit the “continue” button at the end of the section, and your selections in that section will be saved.
- In rare cases, security software can interfere with Elevations®.
- Use an up-to-date, popular browser like Internet Explorer for best results.
